TEXTURED TEES

Cationic is a term used to describe dye that is positively charged on to a fabric that is negatively charged. The result is a colourfast, permanent colour. Cationic clothing is resistant to fading, bleeding, and staining meaning they hold their colour within different environmental factors and multiple cleaning methods. Making them perfect for sports and workwear.

NEW

TR503 & TR504 MEN'S AND WOMEN'S TRIDRI® TEXTURED RECYCLED TEE

A sporty classic - the TriDri® textured recycled tee. Designed to encourage better performance and help achieve personal best, made from quick-drying, lightweight and breathable recycled polyester, that allows maximum movement without restrictions. To maintain its brightness, this t-shirt has been dyed with cationic dyes. The innovative dyeing method greatly increases the fabric's resistance to fading, bleeding, and staining, which is especially beneficial for active individuals who demand durability in their sportswear.
