

RECYCLED

TEXTURED POLO

TR505 MEN'S TRIDRI® TEXTURED RECYCLED POLO

Our men's textured recycled polo is designed for the athlete who desires performance without compromising on style. With built-in wicking properties, this polo will keep you dry and comfortable throughout the day. To maintain its brightness, the polo has been dyed with cationic dyes. The innovative dyeing method greatly increases the fabric's resistance to fading, bleeding, and staining, which is especially beneficial for active individuals who demand durability in their sportswear. Featuring side mesh panels, the polo provides regular ventilation, allowing your skin to breathe as the match heats up. Ideal for both workwear and sports like golf, tennis, or any sport that demands a professional look.
